## Gomocha FSP Portal: USER ABILITY TO EXPORT ASSET DETAILS TO EXCEL

 39066 As a portal user I would like to have the option to export an existing asset to the import Excel template for importing | Done

---

### Description

#### What it is:

- We've added an option to export a selected asset to Excel to have it more easy to adjust existing asset data and use an existing asset as an example for filling out new assets in Excel to import then more easily

#### What it does:

- The selected asset details get saved into an Excel file that is in a format so that it can also get imported into the FSP Portal.

#### Why it matters:

- Efficient way of working saves time—and time is money.

#### Value delivered:

- Reduces the time spent on Portal actions.
- 

### Output/Usage

- **Note:** This feature is only visible and accessible to users with the Admin role assigned.
- **Export button** accessed through Service Center > Customer > Asset Details

The screenshot shows the Gomocho FSP Portal interface. On the left is a navigation menu with options like Dashboard, Analytics, Customer management, and Asset management. The main area is divided into a 'SELECT' panel on the left and an 'ASSET DETAILS' panel on the right. The 'ASSET DETAILS' panel has a green box around the 'EXPORT' button. Below the button are sections for 'Asset information', 'Address', and 'Other details'.
