COPYRIGHT

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws.

Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us. This document is not warranted to be error-free.

Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

Gomocha, Gomocha FSP, Gomocha FMP360, Field Vision are registered trademarks of Gomocha Global B.V. and/or its affiliates. Other names may be trademarks of their respective owners.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Gomocha Global B.V. is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Gomocha Global B.V. is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Gomocha Global B.V. is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

IMPORTANT NOTES

PURCHASE ORDER UPDATE STOCK REQUIREMENTS

In order for the purchase order to update stock levels the following conditions need to be met. If they are not then the stock will not be updated

- In all cases the material being updated needs to have the 'hasStockLevels' value set to 1 (true)
- when Fulfilled quantity Change is greater than 0 there must be a material mutation type in that organization with the stock level action set to "AddToStock" or "Count"
- when Fulfilled quantity Change is less than 0 there must be a material mutation type in that organization with the stock level action set to "RemoveFromStock" or "Count"

ADD GROUP WITHOUT ASSET BUTTON NEW OPTION

Add Group Without Asset Button is now hidden by default and a new option to hide it is added in the QuoteLine Registration Function Block configuration in the Portal.

CLIENT APPLICATION VERSIONS

This release includes the following client application versions:
