Purchase Management Items

	Purchase Management
	Create Service Order PO
	Create Stock Level PO
	Search purchase orders
	Suppliers
	Add Supplier
	Assign Supplier
	Receive Materials
	Reports

WHERE IT FITS IN GOMOCHA

- DIGITAL TRANSFORMATION

WHAT IS IT?

- Automated purchase order generation and vendor management that keeps your inventory stocked and your technicians equipped for every job.

WHAT DOES IT DO?

- Automatically creates purchase orders based on upcoming service work and inventory levels, while managing vendor relationships and tracking deliveries.

WHY DOES IT MATTER?

- Running out of parts means return trips. Manual inventory tracking means you're always guessing what you need. Both cost time and money while frustrating customers.

VALUE DELIVERED

- Prevents material shortages before they impact service
 - Automates manual inventory monitoring tasks
 - Optimizes vendor relationships for supply chain resilience
 - Reduces technician downtime from missing parts
-
